4 September 2026

Completion of Writtle Share Buyback

During our annual Share Trading Window in May, Writtle announced that it would buy back and cancel any excess shares offered for sale. This would increase the proportionate ownership of the remaining shareholders.

A total of 1,063,064 excess shares were offered for sale, including the entire shareholding of our remaining private equity shareholder, VSS Capital Partners. A shareholder resolution was subsequently passed authorising Writtle to purchase those shares.

Writtle purchased the 1,063,064 shares on 28 August 2026 and cancelled them. As a result, the proportionate ownership represented by each remaining ordinary share increased by 16.47%.
